

All of your teachers at St Mary Magdalen's know how you enjoy your **Design & Technology** weeks.

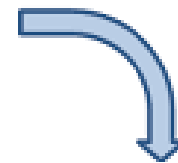

Being creative is one of the many things you do so well!

Why not use your brilliant skills by taking part in our D&T project Week.2 (6<sup>th</sup> -10<sup>th</sup> April)

The theme is based around **textiles** and your challenge is to use spare materials found around the family home to make an Easter craft, linked to **Holy Week**.

(e.g. You can share your sewing skills, collage creativity and fabulous fabrics!  
*(This could be in the form of an Easter card, toy, picture etc.)*)

Some examples can be seen below.

If you do want to take part, then why not Tweet in a picture of your work so we can showcase them in our virtual gallery on our school website.

Good luck with your textile creations !

Some ideas to give you inspiration
