

Year 1 Daily Activities

Tuesday 14th July

Hello boys and girls.

Are you excited about the summer holidays?

We still enjoy reading books on holiday so we hope you will continue to keep reading too.

Maths: Don't forget to log in and complete your Mymaths task

Watch the video for **Week 12** of the White Rose home learning then complete the tasks below. Your focus for maths today is time to the half hour.

<https://whiterosemaths.com/homelearning/year-1/>.

half past 4

half past 1

half past 10

half past 7

1 Match the clocks to the times.

2 Match the clocks to the times.

8 o'clock

half past 8

half past 3

3 Tick the time that matches the clock.

6 o'clock
half past 6

6 o'clock
half past 12

4 Complete the pattern.

5 o'clock

half past _____

6 o'clock

half past _____

_____ o'clock

What time comes next?

P.E. & Exercise:

<https://www.nhs.uk/10-minute-shake-up/shake-ups/hanks-hopscotch>

Can you jump, swing, and slide your way across the Marine Life Institute, moving in and out of camouflage like Hank?

English: Today we would like you to complete these SPaG activities.

Complete the table:

Singular (one)	Plural (more than one)
dish	
leg	
jump	
glass	

a

Unscramble this sentence:

huge, thirsty, grey The was shark
very

c

Find the hidden words.

we w e m n w e
me f n d y b d
my t y z i o n
he d o w h n e
you m k o f e i
friend y h o y l f

e

Tick **two** words that can have 'er' added at the end to make new words.

- pencil
- hang
- quick
- fork
- sprout

b

Tick the real words and cross the alien words.

- Philippa Drete
- elephant envelope
- Steve
- theme
- phonive
- prophet

d

Oops Mr Whoops has made THREE mistakes in his sentence.

Can you change it?

when is it bart's turn to drive

f

Science:

Picking Up an Ice Cube

Science Experiment

Ice cubes are a great thing to add to your drink on a sunny day. Using only a length of thread, can you pick up the ice cube?

You will need:

- ice cube
- thread
- salt
- glass of water

Method:

1. Try different ways of picking up the ice cube using only the thread. You might try tying it around the cube, making a loop or some other way.
2. Now put the ice cube in the glass of water.
3. Lay the thread on top of the ice cubes with the ends hanging over the side of the glass.
4. Sprinkle salt on top of the ice cube and thread. Leave it for a few minutes.
5. Take both ends of the thread and pick them up.
6. Lift up the ends of the thread and hold them up high. See what happens to the ice cube.

The science:

Saltwater freezes at a lower temperature than normal water (this is why the sea doesn't freeze over). The salt melts some of the ice so the thread goes slightly inside the ice cube. The water over the thread freezes again slightly (because the air by the cube is cold), trapping the thread inside the cube. So when you lift the thread, the cube comes with it.

Science Experiment

Picking Up an Ice Cube

Why is it difficult to tie the thread in a loop around the ice cube to pick it up?

Watch carefully what happens when you put the salt on the ice cube?

When the roads are icy and slippery, salt is sometimes put on them. Why do you think this is?

Lots of love from Miss Gray, Mrs Sharp and Mrs Wilkinson
