

Year 1 Daily Activities

Wednesday 15th July

Good morning boys and girls.

Did you manage to pick up an ice cube with a length of thread? It was really tricky wasn't it?

Maths:

Don't forget to log in and complete your Mymaths task.

Watch the video for **Week 12** of the White Rose home learning then complete the tasks below. Your maths focus today is writing time.

<https://whiterosemaths.com/homelearning/year-1/>.

1

Match the activity to the time it takes.

2 Choose a word to complete the sentences.

seconds

minutes

hours

a) The film lasted for 2 _____.

b) Break time is 20 _____.

c) Jo can do 5 star jumps in 20 _____.

3 Ask a partner to use a timer.

a) How many smiley faces can you draw in 10 seconds?

b) What number can you count to in 20 seconds?

c) How many star jumps can you do in 1 minute?

4 The toy train goes round the track twice in 3 minutes.

The train will go round the track more times in 1 hour because hours are longer than minutes.

Kim

Ron

The train will go round the track fewer times in 1 hour because 1 is less than 3

Who do you agree with? _____
Talk about your answers.

History/Geography:

Our Awesome Oceans

<https://www.bbc.co.uk/programmes/moook135>

Ellie Simmonds OBE presents a special geography lesson on the world's oceans, discussing the danger they are in from plastic pollution and what we can do to help protect them.

English:

You have just had a geography lesson from Ellie Simmonds about the oceans and pollution so now we would like you to read the following text about plastic pollution. When you have done this we would like you to answer the questions.

End Plastic Pollution

Our Planet

Our planet is very special and we must look after it. Everyone has an important role in making sure we keep it clean and safe. We also have a responsibility to look after everything that lives in it including people, plants and animals. However, one huge problem that we have is plastic pollution which is damaging our planet and many animals living on it.

What Is Plastic Pollution?

Plastic pollution is when plastic that has been thrown away ends up in oceans and rivers, on beaches and in the countryside.

Many things we use every day are made of plastic. Plastic is very cheap and strong so when it is thrown away it lasts a long time and is hard to get rid of.

Lots of plastic ends up in oceans where it traps and harms fish and other sea animals.

What You Can Do

There are lots of things we can all do to help end plastic pollution.

- Reuse a water bottle instead of buying a new one.
- Don't use plastic straws for drinks.
- Carry shopping in fabric bags, not plastic bags.
- Talk to your family about buying things that are made of other materials, not plastic.
- Talk to your head teacher or school council about how your school can use less plastic.

Did You Know...?

- The amount of plastic that humans use every year weighs the same as 30 million elephants!
- By the year 2050, there could be more plastic in the world's oceans than fish!

1. Whose responsibility is it to look after the earth and everything in it?
Tick one.

- adults
- children
- everyone
- people who live near the sea

2. Draw lines to match these sentences.

By 2050 there could be

Many things we use

There are lots of things

we can do to help end plastic pollution.

every day are made of plastic.

more plastic in the ocean than fish.

3. Number the events below to show the order in which they happen.

- Plastic ends up in oceans and rivers.
- People use plastic and throw it away.
- Plastic traps and harms fish and other sea animals.

4. Find and copy one word that describes plastic.

5. Find and copy one thing you can do to help end plastic pollution.

P.E & Exercise:

Standing Long Jump Home Physical Education

How to play:

- Place a starting marker on the floor.
- Stand beside the starting marker on two feet, how far can you jump landing balanced on 2 feet?
- Challenge a partner to see who can jump the furthest.
- If you have space, place down a marker at 8.31m, the distance Greg Rutherford jumped to win a gold medal in 2012. How many jumps does it take to jump that distance?

Can you focus on your technique and concentrate on your landing?

Can you keep trying even if you miss the target?

Top Tips

Jumping Further

Keep your head up, swing your arms and bend your knees when you land.

Let's Reflect

What did you learn after each jump?

How did you keep focused?

Sending you all lots of hugs.

Lots of love from Mrs Sharp, Mrs Wilkinson and Miss Gray
